## **ACKNOWLEDGEMENT**

The development and evolution of this project has been a never-ending source of both challenges and joy to us. The euphoria and satisfaction that accompanies the success of our project would be complete only with the mention of the people and the organization that made it possible, whose support rewarded our effort with success.

First and the foremost, We would like to thank with immense gratitude to our beloved Principal **Dr. S John Manohar**, for his continuous encouragement and moral support which has been the key for the successful completion of the project.

We express my gratitude to **Dr. Bhanu K.N.**, Professor and HOD, Department of Computer Applications for her encouragement and support in successful completion of the project.

We would like to express my heart-felt gratitude to my guide **Prof.HarshithM**, Assistant professor, for her valuable suggestions and excellent guidance rendered throughout this project.

Finally, We thank my parents and all my friends for helping and encouraging me during the period of my project.

## **ABSTRACT**

The purpose of Intra-College Communication System is to automate the existing manual system by the help of computerized equipment's and fullfledged computer software, fulfilling their requirements, so that their valuable data/information can be stored for a longer period with easy assessing and manipulation of the same. The required software and hardware are easily available and easy to work with.

Intra-College Communication System, as described above, can lead to errorfree, secure, reliable and fast networking system. The organization can maintain computerized records without redundant entries. That means that one need not be distracted by information that is not relevant, while being able to reach the information.
